

Oxidized Glutathione Content Assay kit

GSH/GSSG is one of the most important redox pairs in cells. Therefore, the determination of the content of GSH and GSSG in the cell and the ratio of GSH/GSSG can well reflect the redox state of the cell, and it is also one of the main indicators of the glutathione redox cycle. The content of GSSG is measured by the 2-VP method.

|-------------------|-----------------------------|
| Catalog No. | 250118 |
| Size | 50 Assays / 100 Assays |
| Product Category | Enzymatic / Metabolic Assay |
| Detection Method | Visible spectrophotometry |
| Storage/Stability | 2 ~ 8°C/1 year |
| Shipping | Gel Packs |
