

Trimethoprim ELISA kit

This kit is based on Enzyme Linked Immunosorbent Assay (ELISA) for the detection of Trimethoprim residues in various samples. All the necessary reagents alongwith pre-coated (12 x 8) 96-well micro-plate/plates are supplied in the kit.

Catalog No.	392065
Size	96 Test
Product Category	Drug Residue ELISA
Sensitivity	0.5 ppb
Sample Source	Chicken, Pork, Duck
Storage/Stability	2 ~ 8°/1 year
Shipping	Ambient
