

Krebs-Ringer Solution

Krebs-Ringer Buffer is a balanced salt solutions, developed for tissue and cell culture. Although there have been many modifications to the original formuLas in efforts to produce fuLLy defined media, Krebs-Ringer salt solutions still play an important role in tissue culture. A salt solution's basic function, to maintain the pH and osmotic balance in the medium and to provide the cells with water and essential inorganic ions, is as valuable today as when it was first developed a century ago.

Catalog No.	523019
Size	500mL
Product Category	Cell Culture Reagent
Storage/Stability	2 ~ 8°C/1 year
Shipping	Ambient
