

T7 RNA Enzyme Mix

In this enzyme mix T7 RNA polymerase, inorganic pyrophosphatase and recombinant RNase inhibitors are mixed in a certain proportion. The Enzyme MIX can further increase production, improve purity, and more efficiently assist production enterprises and scientific research institutions in optimizing the system and improving production capacity.

Concentration: 50U/ μ L

Units/Pk: 5000U/100 μ L; 50000U/1mL

This product is produced by GMP process requirements while using Animal Origin Free (AOF) production process; and it is free from DNase & RNase contamination.

Catalog No.	56140011
Size	100 μ L / 1mL
Product Category	mRNA Raw Material
