

## NTP mix [100mM]

---

NTP solution is a mixtures of nucleoside triphosphates, contains ATP, CTP, UTP & GTP of each in 100mM concentration. It is used in a variety of applications, such as in-vitro transcription, RNA amplification, siRNA synthesis, etc, additionally, used as a reaction substrate or coenzyme for a variety of enzymes.

This product is produced by GMP process requirements while using Animal Origin Free (AOF) production process and free from DNase, RNase and phosphatase contamination.

Catalog No.	56150020
Size	5mL / 10mL / 25mL
Product Category	mRNA Raw Material
