

Mouse FYN (FYN Oncogene Related To SRC/FGR/YES) ELISA kit

This kit applies sandwich ELISA method for the quantitative detection of FYN (FYN Oncogene Related To SRC/FGR/YES) in mouse samples. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse FYN. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse FYN. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse FYN, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Mouse FYN in the samples is then determined by comparing the OD of the samples to the standard curve.

Catalog No.	3026319
Size	96-Wells
Product Category	ELISA (Quantitative)
Reactivity	Mouse
Sample	Tissue Homogenates; Cell Lysates; Other Biological Fluids
Assay Method	Sandwich ELISA
Assay Duration	3.5 hours
Sensitivity	0.115 ng/mL
Standard Curve Range	0.32-20 ng/mL
Storage/Stability	-20°C/1 year; 4°C/6 months
