

## Methyl Green-Pyronine (MGP) stain solution

---

Methyl Green-Pyronin stain solution (also known as MGP stain solution) is combination of two stains, commonly used for tissue or cell staining. Methyl Green stain the nuclei of DNA in green or blue-green color; while Pyronine stain cytoplasm and nucleoli of RNA in red color. This stain can be used in conjunction with immunofluorescence or immunohistochemical staining. One package of this stain solution can stain at least 200 samples.

Catalog No.	261016
Size	100mL
Product Category	Histochemical Stain
Storage/Stability	Ambient/1 year
Shipping	Ambient
