

REAL-Mag™ Viral RNA Isolation Kit

The Magnetic Nanoparticles provide large surface area and highly specific nucleic acid binding capacity resulting in purification of high quality nucleic acids from various strains. REAL-Mag™ Viral RNA Isolation kit allows rapid and robust purification of RNA. The purified RNA is free from contaminations and other impurities such as nucleases and proteins; suitable for direct use in most downstream applications such as PCR, RT-PCR, one-step RT-qPCR and sequencing.

|-------------------|------------------------|
| Catalog No. | 142011 |
| Size | 50 preps / 100 preps |
| Product Category | Nucleic Acid Isolation |
| Storage/Stability | 2 ~ 8°C/1 year |
| Shipping | Ambient |
