

REAL-Prep™ Stubby Adapter & UDI Primer Set [10nt] 193~21010 (for Illumina)

UDI Primers are a mix of i5 and i7 Primers. UDI Primers and Stubby adapter together are the dedicated linker for library construction on the Illumina high-throughput sequencing platform. REAL-Prep™ Stubby Adapter & UDI Primer set are available in piercable plate, each well of the plate contain a unique dual indexing primer pair with PE adapter.

All reagents provided in the kit undergo rigorous quality control and functional verification to maximize library construction stability and repeatability.

Catalog No.	518178
Size	
Product Category	Next-Generation Sequencing
Pack Size	96 x 1 rxn
Storage/Stability	-20° C/ 6 months
Shipping	Gel Packs
