REAL-Prep™ 8nt Universal Blocker (for Illumina)

REAL-Prep™ 8nt Universal Blocker is a universal blocking sequence suitable for Illumina sequencing platform. Minimize off-target effects of capture probes and increase the specificity of capture sequencing.

This product is suitable for blocking libraries containing double-ended 6 & 8 nt barcode adapters.

Catalog No.	518191
Size	
Product Category	Next-Generation Sequencing
Pack Size	16 rxn / 96 rxn
Storage/Stability	-20° C/ 6 months
Shipping	Gel Packs
