

REAL-Dye™ Terminator Sequencing Buffer [5x]

REAL-Dye™ Terminator Sequencing Buffer [5x] is a concentrated dilution buffer and a key component, optimized to save on Dye Terminator reagent, without affecting sequence accuracy or read length. Use of REAL-Dye™ Sequencing Buffer maintains the pH and magnesium optima for the cycle sequencing reaction.

Catalog No.	517002
Size	
Product Category	Sanger Sequencing
Platform	ABI 310 /3100 / 3130 / 3130xL / 3500 / 3500xL / 3730 / 3730xL
Pack Size	1mL / 30mL
Storage/Storage	2 ~ 8°C / 1 year
Shipping	Gel Packs
