

10x Tris-Tricine-SDS Anode Buffer

Tris-Tricine Anode Buffer provides for convenient running of SDS-PAGE gels. This electrode buffer was designed for use with gels containing Tris-acetate buffer.

The buffer consist Tris Base & Tricine in recommended concentrations. The buffer is supplied in 10x concentrate and should be diluted prior to use in electrophoresis.

Catalog No.	503018
Size	100mL / Size1 / WSP
Product Category	SDS-PAGE Buffer & Stain
Storage/Stability	2 ~ 8°C/1 year
Shipping	Ambient
