

Ceruloplasmin Content Assay kit

Ceruloplasmin is a copper-containing protein in plasma. It has the function of transporting copper and has the activity of oxidase. It is an important antioxidant in the extracellular fluid.

Ceruloplasmin catalyzes 3,3',5,5'-tetramethylbenzidine to produce a blue product, with a characteristic absorption peak at 645nm, which can be used to obtain ceruloplasmin activity.

Catalog No.	250130
Size	50 Assays / 100 Assays
Product Category	Colorimetric Assay
Detection Method	Visible spectrophotometry
Storage/Stability	2 ~ 8°C/1 year
Shipping	Gel Packs
