

## BA (Butyric Acid) ELISA Kit

|                   |                                       |
|-------------------|---------------------------------------|
| Catalog No.       | 3081740                               |
| Size              | 96 Tests                              |
| Product Category  | ELISA (Quantitative)                  |
| Reactivity        | General                               |
| Sample Type       | Biological agents                     |
| Assay Method      | Competitive Inhibition                |
| Assay Duration    | 2 hours                               |
| Sensitivity       | 53.7 pg/mL                            |
| Standard          | 10000 pg/mL                           |
| Detection Range   | 156.25-10000 pg/mL                    |
| Synonyms          | Propanecarboxylic Acid; Butanoic Acid |
| Storage/Stability | -20°C/1 year; 4°C/6 months            |
