

## Human ANA (anti-nuclear Antibody) ELISA Kit

|                   |                                                                                                    |
|-------------------|----------------------------------------------------------------------------------------------------|
| Catalog No.       | 3092010                                                                                            |
| Size              | 96 Tests                                                                                           |
| Product Category  | ELISA (Quantitative)                                                                               |
| Reactivity        | Human                                                                                              |
| Sample Type       | Serum, Plasma, Tissue homogenates, Cell lysates, Cell culture supernates & other biological fluids |
| Assay Method      | Sandwich                                                                                           |
| Assay Duration    | 3.5 hours                                                                                          |
| Sensitivity       | 0.56 ng/mL                                                                                         |
| Standard          | 100 ng/mL                                                                                          |
| Detection Range   | 1.57-100 ng/mL                                                                                     |
| Synonyms          | Anti nuclear Antibody                                                                              |
| Storage/Stability | -20°C/1 year; 4°C/6 months                                                                         |
