

Trypsin Digestion solution [0.1%]

Trypsin Digestion solution is a solution containing 0.1% concentration of trypsin, it is typically used in cell culture to detach adherent cells from their growth surface. The solution is prepared by diluting powdered trypsin in a balanced salt solution, such as Dulbecco's Phosphate-Buffered Saline (DPBS).

Catalog No.	523039
Size	10mL
Product Category	Cell Culture Reagent
Storage/Stability	-20°C/1 year
Shipping	Gel Packs
