

DNase I-ST (RNase-free) [2U/uL]

This product is an engineered variant of DNase I, which exhibits significantly improved salt tolerance compared to the wild-type enzyme. It can fully digest DNA in 300mM salt. This product is free from RNase contamination.

Material supplied:

1. DNase I-ST (RNase-free) [2U/uL]: 1,000 units
2. DNase I-ST Buffer [10x]: 1.25mL

Catalog No.	517041
Size	1,000 units
Product Category	In Vitro Transcription
Storage/Stability	-20°C / 2 years
Shipping	Gel Packs
