

REAL-Seq™ Running Buffer [10x]

REAL-Seq™ 10x Running Buffer is electrophoresis buffer system used on ABI 3730 and 3730xl sequencing instruments for the sequencing process after dilution to 1x. The concentrated buffer has the advantages of strong buffer capacity and low background of sequencing results.

Catalog No.	519003
Size	
Product Category	Sanger Sequencing
Platform	ABI 3130 / 3130xL / 3500 / 3500xL / 3730 / 3730xL / SeqStudio™ Flex
Pack Size	25mL / 100mL / 500mL
Storage/Storage	2 ~ 8°C / 1 year
Shipping	Gel Packs
