REAL-Prep™ Nextera Universal Blocker (for Illumina)

REAL-Prep™ Nextera Universal Blocker is a universal blocking sequence designed for Illumina sequencing platforms. This product hybridizes to adapter sequences in Illumina-compatible libraries to reduce non-specific hybridization between adapter strands, minimize off-target effects of capture probes, and to enhance specificity in capture-based sequencing workflows.

Catalog No.	519194
Size	
Product Category	Next-Generation Sequencing
Pack Size	16 rxn / 96 rxn
Shipping	-20° C/ 6 months
