

Denhardt's Solution [50x]

Denhardt's Solution is often used for blocking non-specific binding during pre-hybridization and hybridization processes such as Northern, Southern, Western, Dot/Slot, Microarray blotting technologies, and help blotting experiments to maximize the level of specific hybridization, sensitivity and signal-to-noise ratio. It is a ready-to-use ideal blocking solution no ribozyme pollution for stable performance, convenient and quick operation.

Catalog No.	504102
Size	50mL
Product Category	Western Blot
Storage/Stability	-20°C/1 year
Shipping	Ambient
