

2x HS SYBR Green qPCR Mix [Universal]

2x HS SYBR Green qPCR Mix [Universal] is a special premix for qPCR detection using SYBR Green I chimeric fluorescence method. The Mix contains all components for qPCR, except DNA templates and primers.

The core component is the advanced hot-start Taq DNA polymerase with better specificity. With the optimized buffer, the mix is able to obtain consistent and reliable qPCR results in a broad template concentration range.

This product contains Universal reference dye, it is compatible with most of qPCR devices, and do not require additional ROX dyes before reaction.

Catalog No.	511003
Size	1mL / 5 x 1mL
Product Category	PCR / qPCR / RT-PCR
Storage/Stability	-20°C/1 year
Shipping	Gel Packs
