

HT supplement [50x]

The Hybridoma Growth Medium with HT is a liquid medium optimized for hybridoma expansion after hypoxanthine, aminopterin, and thymidine (HAT) selection. The medium is a chemical-defined medium containing hypoxanthine and thymidine (HT), which is used to wean hybridomas off aminopterin used during the selection process. This medium has been verified for use in mouse and rat hybridoma development and monoclonal antibody production.

Catalog No.	523016
Size	100mL
Product Category	Cell Culture Reagent
Storage/Stability	2 ~ 8°C/1 year
Shipping	Gel Packs
