

DTT [1M]

DTT (Dithiothreitol) is used as reducing agent for antioxidation effect and reduces the SS bond of protein. It has 7 fold lower concentration in compared with b-Mercaptoethanol but it has similar effects. Also, it has much lesser pungent odor and the toxicity is much lower than b-mercaptoethanol.

Catalog No.	154001
Size	5mL / 25mL
Product Category	Stock Solution / Buffer
Storage/Stability	-20°C/1 year
Shipping	Gel Packs
