

Gentamicin [50mg/mL]

Gentamicin is a water-soluble aminoglycoside. Gentamicin solution at a concentration of 50mg/mL is a broad-spectrum antibiotic used in cell culture to prevent bacterial contamination. It is effective against contaminations with gram-positive and gram-negative bacteria.

Catalog No.	155004
Size	5mL / 10mL
Product Category	Stock Solution / Buffer
Storage/Stability	-20°C/1 year
Shipping	Gel Packs
