

Total Mercapto Assay kit

The sulfhydryl mainly includes glutathione sulfhydryl group and protein sulfhydryl group in vivo. The former can not only repair the oxidative damage protein, but also participate in scavenging the reactive oxygen species. The latter plays an important role in maintaining the protein conformation. The content of protein sulfhydryl can be determined indirectly by measuring the content of total sulfhydryl and GSH. Sulfhydryl react with 5,5'-dithio-bis-nitrobenzo max absorbance peak at 412 nm.
