

Stubby UMI Adapter (for Illumina)

REAL-Prep™ Stubby UMI Adapter for the construction of DNA libraries on the illumina high-throughput sequencing platform, and the UMI Adapter for the DNA ligation step can realize double-ended UMI correction of sequencing results, improving the sensitivity and specificity of low-frequency mutation detection.

Catalog No.	519180
Size	
Product Category	Next-Generation Sequencing
Pack Size	24 rxn / 96 rxn
Shipping	-20° C/ 6 months
