

## Mallory's Trichrome staining Kit

---

Three-color staining usually refers to staining the nucleus and selectively showing collagen fibers and muscle fibers. The dyeing principle of this method is divided into anionic dyes. Mallory Tricolor Staining Kit can dye collagen fibers blue, cell nuclei and muscle fibers red, and red blood cells orange yellow.

### Kit Components:

1. Mallory staining solution A (50mL)
2. Mallory staining solution B (50mL)
3. Mallory staining solution C (50mL)

Catalog No.	260009
Size	3 x 50mL
Product Category	Histochemical Stain
Storage/Stability	Ambient/1 year
Shipping	Ambient
