

Golgi Membrane Protein Extraction Kit

Golgi Membrane Protein Extraction Kit can be used for the extraction of Golgi membrane proteins from various animal cells and solid soft and hard tissue samples. The protein extracted by this kit can be used for downstream protein research experiments such as Western Blotting, protein electrophoresis, immunoprecipitation, ELISA, transcriptional activity analysis, Gel shift gel retardation experiment, and enzyme activity assay. The protein extracted by this kit is the active protein with the native protein conformation.

This kit does not contain EDTA, therefore this kit is compatible with downstream applications such as metal chelation and chromatography.

Catalog No.	501110
Size	50 preps
Product Category	Protein Isolation
Storage/Stability	2-8°C / 1year
Shipping	Gel Packs
