

## Universal Genomic DNA Extraction Kit

---

This universal kit is suitable for extraction gDNA from soil, feces, insects, and other samples. It has good effect cleavage on samples of bacteria, fungi, insects, etc., and the maximize retention the biological DNA polymorphism. The extracted DNA with high yield and good integrity. The extracted DNA fragments with large, high purity, stable and reliable quality.

The purified gDNA is highly suited for enzyme digestion, PCR analysis, Southern blotting, and cDNA library.

Catalog No.	130010
Size	50 preps
Product Category	Nucleic Acid Isolation
Application	Purify genomic DNA from variety of samples
Storage/Stability	Ambient & -20°C/1 year
Shipping	Ambient & Gel Packs
